

MATHEW OTIENO MAGUNDHO

Nairobi, Kenya mathewrean@gmail.com • [Portfolio](#) • [LinkedIn](#): [mathewrean](#)

OBJECTIVE

I am passionate about learning how to build and secure software systems. I have experience using basic cybersecurity tools and modern web frameworks. Currently, I am looking for an internship where I can solve real problems, learn from a professional technical team, and improve my security and development skills.

PROFESSIONAL EXPERIENCE

Softelans Technologies Limited

Software Developer Intern (Academic Attachment) • June 2026 – September 2026

- Learn how to develop applications in a corporate software environment.
- Use PHP Laravel to handle backend requests, logic services, and custom controllers.
- Build front-end application screens and user views using Next.js framework systems.
- Test backend APIs and manage data using JSON objects and AJAX scripts.

CTFZone Labs

Campus Ambassador • February 2025 – Present

- Talk directly with platform owners to set up dedicated cybersecurity CTF events for our campus.
- Created and support a growing cybersecurity community for active students on campus.
- Shared learning materials to help fellow students use labs, practice tools, and solve security tasks.

Jaramogi Oginga Odinga University of Science and Technology (JOOUST)

Congress Representative, School of Informatics • December 2025 – Present

- Represent student views to school management regarding daily academic and welfare needs.
- Take part in discussions about community guidelines, school budgets, and student leadership tasks.
- Help run student committees to keep campus activities clear, open, and organized.

Systems Hub Limited

IT Intern • June 2025 – August 2025

- Assisted senior IT technicians with on-site physical network setup and computer hardware issues.
- Managed local office network cables and assisted users with daily tech troubleshooting needs.

EDUCATION

Jaramogi Oginga Odinga University of Science and Technology

Bachelor of Science in Computer Security and Digital Forensics • Aug 2023 – Present

Cybershujaa

Security Analyst Course • Jan 2026 – Apr 2026

Cisco Networking Academy

Ethical Hacker Course • May 2025 – Aug 2025

SKILLS

Cybersecurity: Network Security, Application Security, Vulnerability Assessment, Reconnaissance, Threat Analysis, Security Testing, Digital Forensics, Authentication, Access Control.

Technical: Network Analysis, Packet Analysis, Linux Administration, Python/Django, PHP/Laravel, REST APIs, JSON/AJAX, Controllers & Services, Database Management, System Troubleshooting.

Soft Skills: Problem Solving, Critical Thinking, Technical Research, Leadership, Teamwork, Communication, Mentoring, Adaptability.
